

In princípio creávit Deus caelum et terram. Terra erat inánis, et vá-

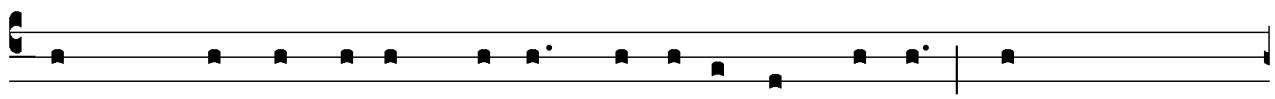

cu- a, et ténebrae erant super fá-ci- em abýssi: et Spíritus Dei

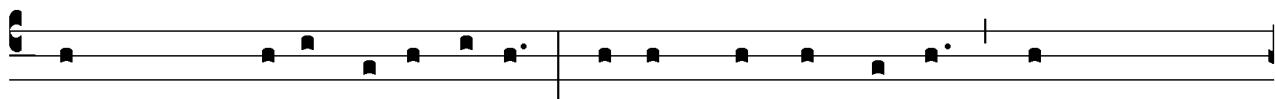

ferebátur super aquas. Dixítque De-us: “Fí- at lux.” Et facta est lux.

Et vídit Deus lucem quod esset bona. Et divísit lucem a ténebris.

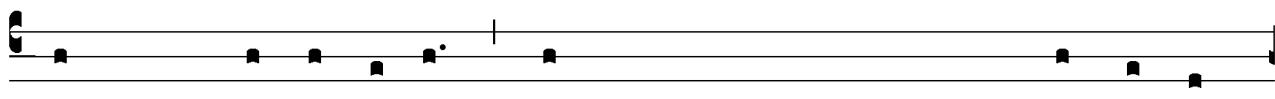

Appellavítque lucem Dí- em, et ténebras Noctem: Factúmque est

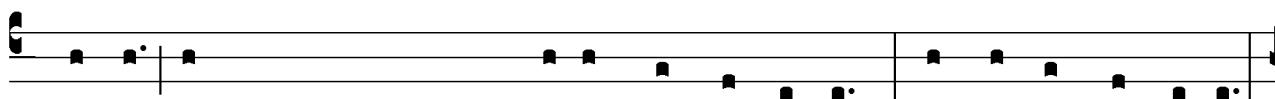

véspera et mane, dí- es unus. Díxit quoque De- us: “Fíat firma-

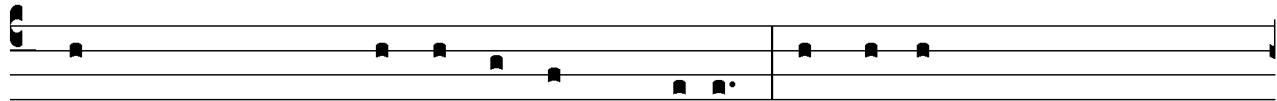

mémentum in médi- o aquárum. Et dívidat aquas ab aquis”. Et

fecit Deus firmaméntum, divisítque aquas, quae erant sub firma-

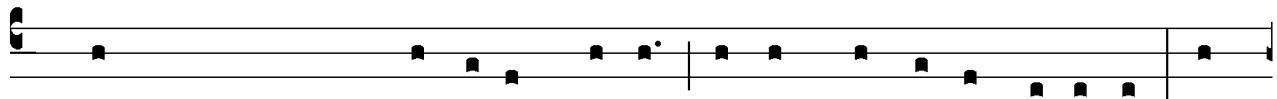

ménto, ab his, quae erant super firmaméntum. Et factum est i-ta.

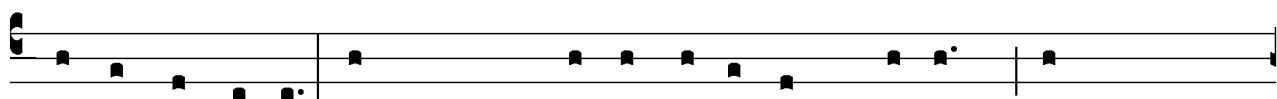

Vocabítque Deus firmaméntum, Caelum. Et factum est véspera et

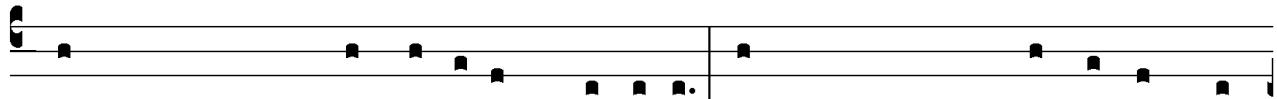

mane, di- es secúndus. Dixit ve- ro De- us: "Congregéntur aquae,

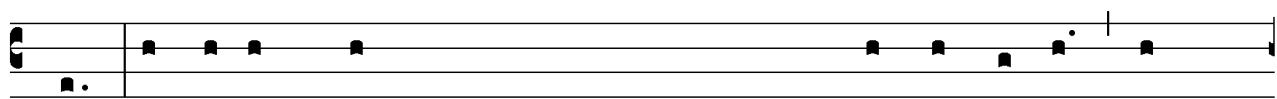

quae sub caelo sunt, in unum locum, et ap- pá- re- at á-ri-da." Et

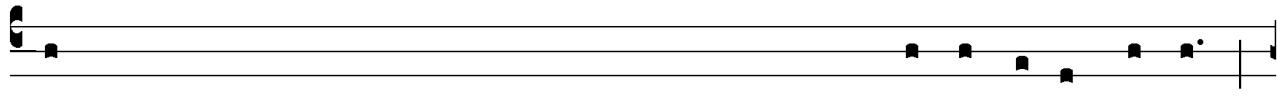

factum est i- ta. Et vocávit De- us á-ri-dam, Terram; congregatio-

nésque aquárum appellávit Ma-ri- a. Et vidit Deus quod esset bo-

num. Et a- it: "Gérminet terra herbam quae fa- cit semen , et

lignum pomíferum fáciens fructum secúndum juxta genus su- um,

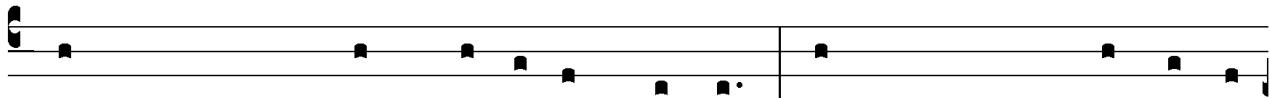

cujus semen in semetípso sit super terram." Et factum est i- ta. Et

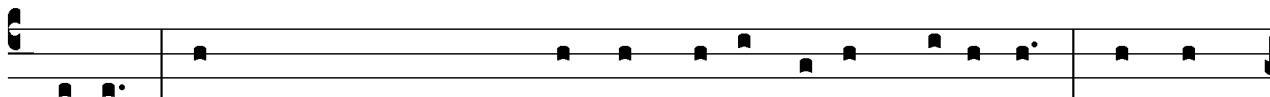

prótulit terra herbam viréntem, et faciéntem semen juxta genus su-

um, lignūmque fa-ci- ens fructum, et habens semen unumquódque

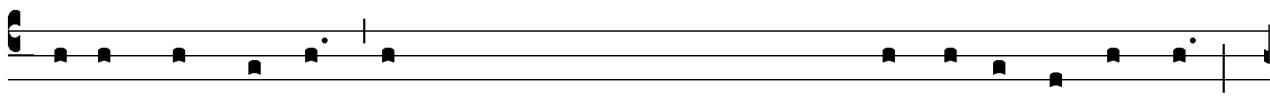

seméntem secúndum spé-ci- em su- am. Et vidit Deus quod esset

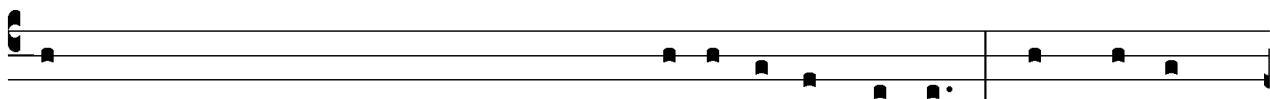

bonum. Et factum est véspera et mane, di- es térti- us. Di- xit

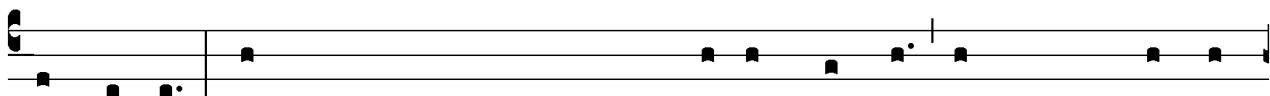

autem De- us: "Fiant luminária in firmaménto caeli, et dívidant

di- em ac noctem, et sint in signa, et témpora, et di- es, et annos:

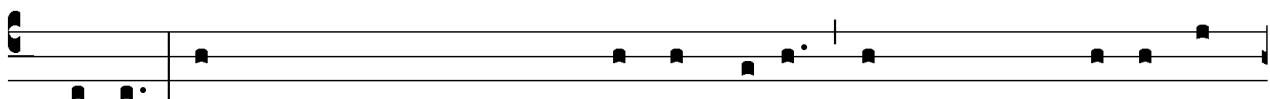

ut lúceant in firmaménto caeli, et illúminent terram". Et factum

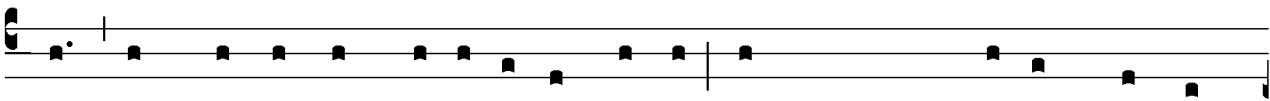

est i- ta. Fecítque Deus duo luminári- a magna : lumináre maj- us,

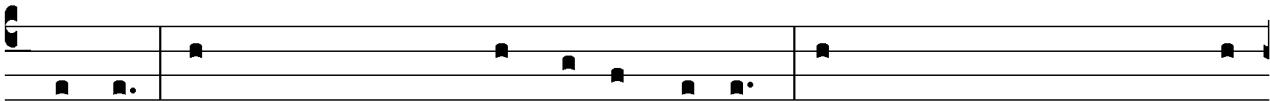

ut prae- ésset di- é- i : et lumináre minus, ut praeésset nocti : et

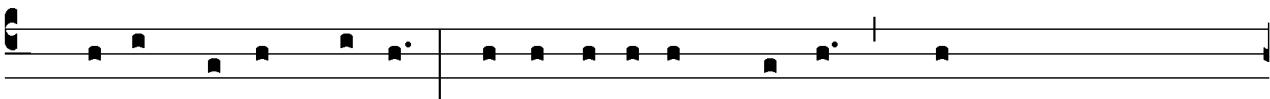

stellas. Et pósuit eas in firmaménto caeli, ut lúcerent super ter-

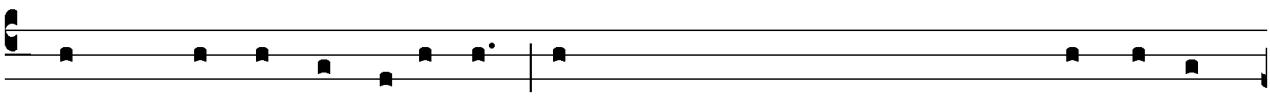

ram, et prae- éssent di- é- i ac nocti, et divíderent lucem ac té-

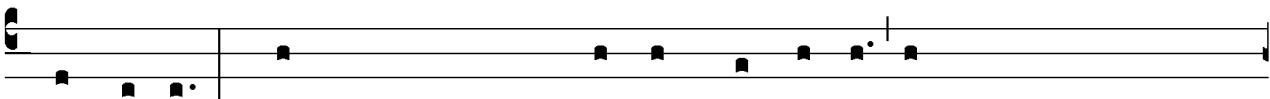

nebras. Et vidit Deus quod esset bonum. Et factum est véspera, et

mane, di- es quártus. Dixit é-ti- am De- us: "Prodúcant aquae

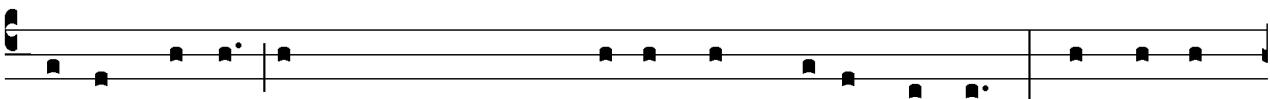

réptile á- nimae vivéntis, et volátile super terram sub firmamén-

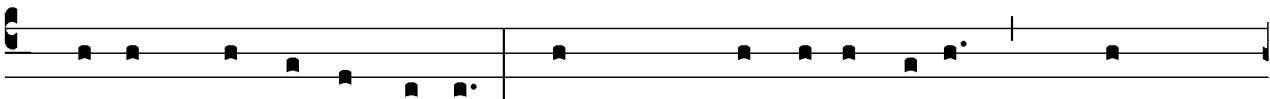

to cae-li." Cre- avítque Deus ce- te grándi- a, et omnem ánimam

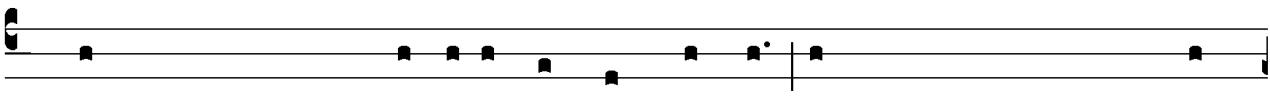

vivéntem atque mo- tá-bi- lem, quam prodúxerant aquae in spé-

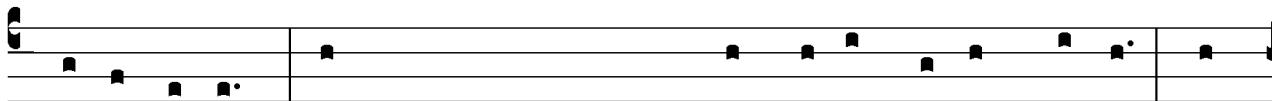

ci- es su- as, et omne volátile secúndum genus su- um. Et vi-dit

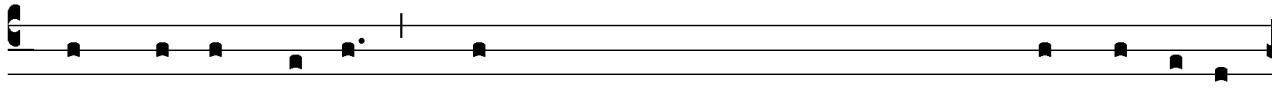

De- us quod esset bonum. Benedixítque e- is dicens : "Créscite, et

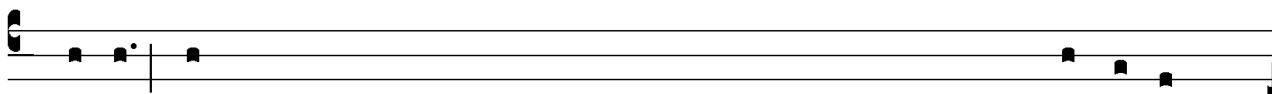

multiplicámini, et repléte aquas ma- ris : avésque multiplicéntur

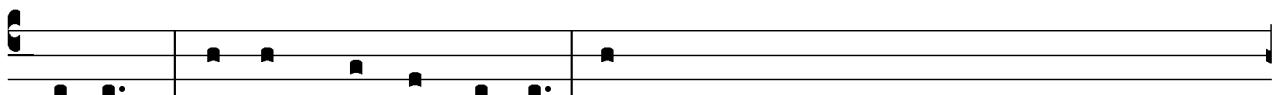

super terram.” Et factum est vespere, et mane, di- es quintus. Di-

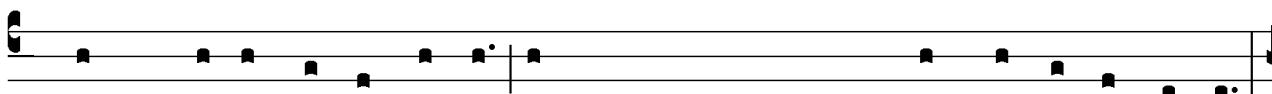

xit quoque De- us : “Prodúcat terra ánimam vivéntem in gé-ne-re

su- o : juménta, et reptilia, et béstias terrae secúndum spé-ci- es

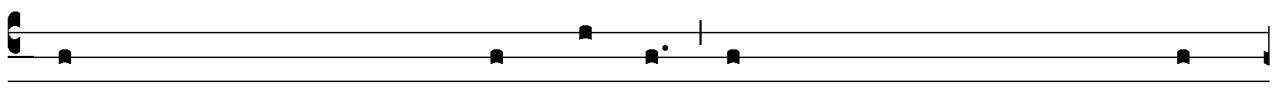

su- as.” Factúmque est i- ta. Et fecit Deus béstias terrae iuxta

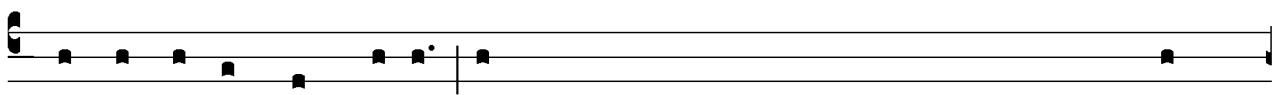

spécies su- as, et juménta, et omne réptile terrae in gé-ne-re su- o.

Et vidit Deus quod esset bonum, et a- it: “Faciámus hominem ad

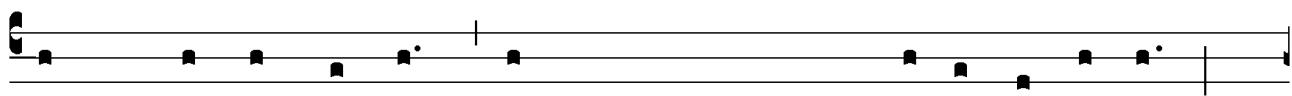

imáginem et similitúdinem nostram: et praesit píscibus maris et

vo- la- tí- li- bus caeli, et béstii, universaéque terrae, omníque

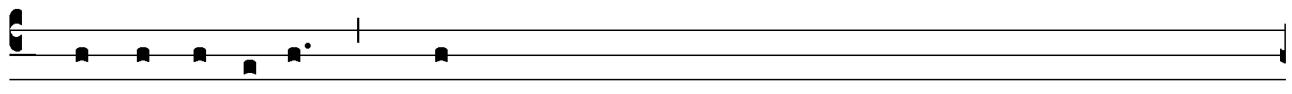

réptili, quod mové- tur in terra”. Et creávit Deus hominem ad

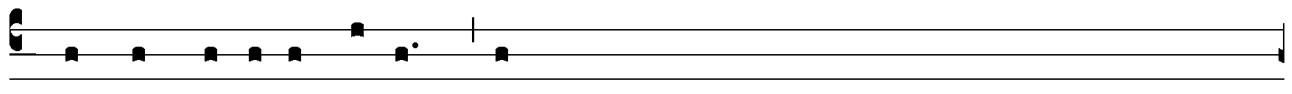

ad imágí- nem su- am: ad imáginem Dei cre- á- vit il-lum,

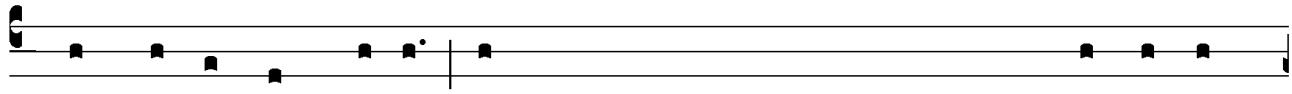

másculum et féminam cre- á- vit e- os. Benedixítque illis

De- us, et a- it: “Créscite, et multiplicámini, et repléte terram,

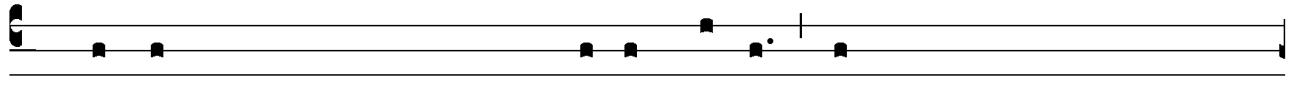

et sub-jí-ci-te e- am, et dominámini píscibus maris, et

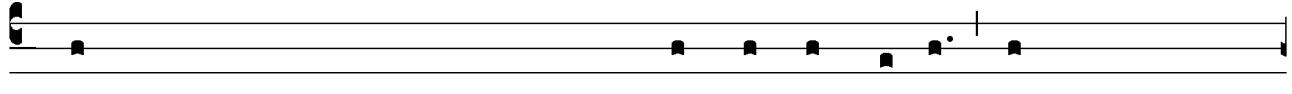

vola-tí- li- bus caeli, et univérsis animántibus, quae mo-véntur

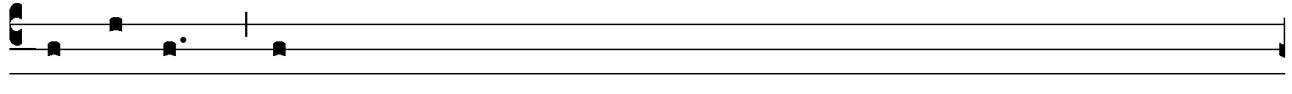

super terram”. Di- xítque De- us: “Ecce dedi vobis omnem

herbam afferéntem semen super terram, et univérsa ligna, quae

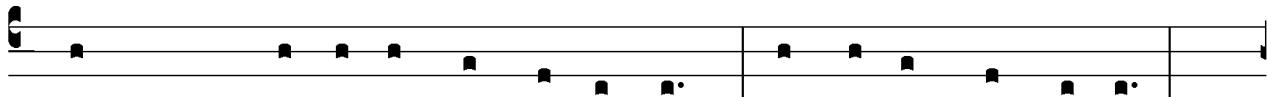

habent in semetípsis seméntem gé- ne- ris su- i, ut sint vobis

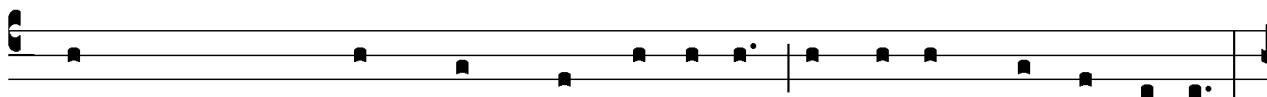

in escam: et cunctis animántibus terrae, omníque volúcri caeli,

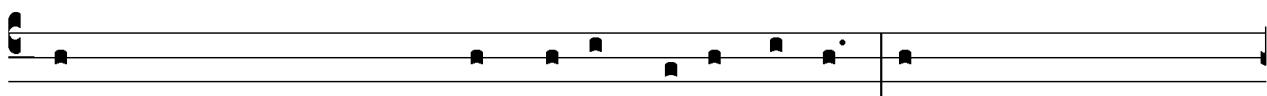

et univérsis quae mo-vén-tur in terra, et in quibus est ánima

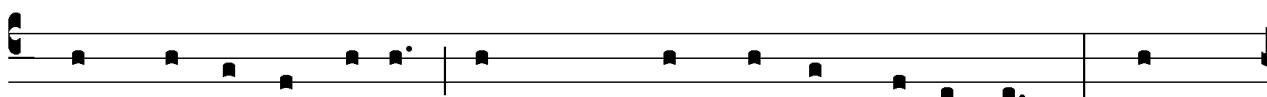

vivens, ut há-be- ant ad vescéndum". Et factum est i- ta.

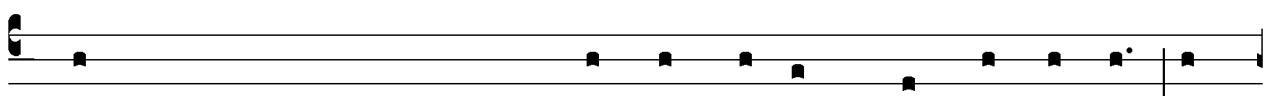

Vidítque Deus cunc- ta, quae fé-ce-rat: et e-rant valde bona.

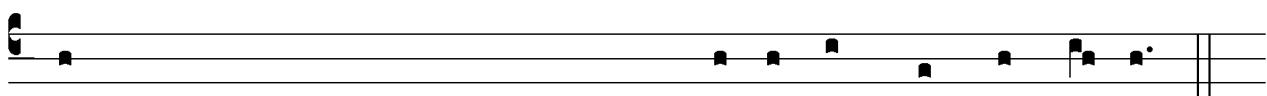

Et factum est véspera, et mane, di- es sextus. Igitur perfécti

sunt cae- li, et terra et omnis or- ná- tus e- ó- rum. Com-

plevitque Deus die séptimo o- pus su- um quod fé- ce- rat: et

requiévit die séptimo ab univérsso ó-pe- re quod pa-trá- rat.
